

Bausch + Lomb Introduces renu® Advanced Formula Multi-Purpose Solution

May 22, 2017

New & Improved Formula Builds on Trusted 30-Year Heritage of Meeting Consumers' Lens Care Solution Needs

LAVAL, Quebec, May 22, 2017 /PRNewswire/ -- Valeant Pharmaceuticals International, Inc.'s (NYSE: VRX and TSX: VRX) wholly owned subsidiary, Bausch + Lomb, a leading global eye health company, today announced the launch of renu® Advanced Formula multi-purpose solution for soft and silicone hydrogel contact lenses. This unique formula combines three disinfectants and two moisture agents to provide excellent lens cleaning and disinfection, in addition to all-day comfort.

"At Valeant, we are keenly focused on continuing to drive innovation and enhance our existing portfolio using the most current scientific and clinical research to better meet the needs of our customers and their patients," said Joseph C. Papa, Chairman and CEO of Valeant. "The Bausch + Lomb Consumer Healthcare business remains a critical driver for our global eye health business, offering a wide range of over-the-counter supplements, eye care, and lens care products."

Bausch + Lomb was the first company to bring an 'all-in-one' multi-purpose disinfection solution to market with the launch of the renu brand in 1987. Today, the brand has grown to more than three million users. The new and improved renu Advanced Formula solution will replace renu sensitive and renu fresh solutions beginning in June in major retailers.

Bausch + Lomb's Consumer Healthcare business is one of the fastest growing consumer healthcare businesses in the U.S.¹ and the No. 1 category growth contributor (62%) in the eye care category.² The product portfolio includes such well-known brands as Biotrue® multi-purpose solution the No. 1 multi-purpose solution brand in households with the highest loyalty metrics³, and PreserVision® AREDS 2 Formula Eye Vitamin and Mineral Supplement (120 ct.), the No. 1 selling SKU in the vitamin category and the largest contributor to vitamin category growth.⁴

In addition to its product portfolio, Bausch + Lomb's Consumer Healthcare business has a rich R&D pipeline that relies on a research strategy to develop new formulations for new and existing products and line extensions, among others. This includes the company's new redness reliever candidate, brimonidine tartrate ophthalmic solution, 0.025% (Luminesse™⁵), which is currently under review by the U.S. Food and Drug Administration.
